A LARGE-SCALE 4FT ANTIQUE CAST IRON CAULDRON PLANTER POT WITH ENAMELLED VERDIGRIS PATINA

SKU: GD1669

£3,995.00

Transform your garden or interior space with this stunning Antique Cast Iron Cauldron Planter Pot. Measuring nearly 4 feet in diameter, this impressive piece serves as a captivating focal point, perfect for large garden spaces or as a statement piece for a large interior scheme.

The exterior showcases a beautiful, timeworn rust finish, adding character and charm. The inside features a lovely green enamel with hues reminiscent of Verdigris copper, enhancing its aesthetic appeal. Designed with a tapered shape, it offers a graceful silhouette with a rounded bottom and flared top edge.

An antique piece, probably late Victorian and made originally as a large industrial washing pot, possibly for a large stately home or an industrial mill. Crafted from 2 cm thick cast iron, this planter is robust yet manageable for two people to move and position. For safety, we suggest placing it on a steel ring or cementing it in position, as seen in the photos we used a wooden block to photograph.

This cauldron pot is in excellent sound condition, making it a truly one-of-a-kind addition to your décor. Its unusual size and stunning rustic design ensure it will stand out wherever it is placed.

An extraordinary piece, ideally suited for a commercial interior or exterior design project.
