1960S MID CENTURY RED BROWN LEATHER CHROME SWIVEL CHAIR BY ARNE NORELL FOR VATNE MØBLER

SKU: GD1493

£1,385.00

A beautifully made 1960s leather swivel chair by notable Swedish designer Arne Norell for Vante Møbler AS. A well crafted piece with heavy chrome base and high quality leather with hand stitching. Originally a dark reddish brown, the leather has faded to this wonderful, almost burnt orange colour which gives the piece a fantastic look and character. Having sold a few Arne Norell chairs, this is certainly one of the most unique colours we've seen.

This high back version is very comfortable with soft leather arm supports on a sturdy chrome metal base. the chair is in excellent order, there are some age related scuffs to the leather, especially around the back but this gives the chair a nicely aged patina and great character. The swivel base is in excellent condition with a smooth action. The chrome is also in excellent condition.

A lovely high quality mid century designer piece.

Seat height 40cm / 16"

We pride ourselves on providing accurate photos and description, and all our pieces are ready to use.

Price includes UK mainland delivery
