

**A HEAVY BLACK WROUGHT IRON BLACKSMITH MADE FIREPLACE CLUB FENDER
BRUTALIST FORM**

SKU: GD1559

A heavy form wrought iron club fender with tan leather padded seats. An incredible individual handmade piece, probably a commission piece or an estate made piece. The piece is made from solid bar, each piece hand riveted to create this wonderful brutalist form with an almost medieval feel to it. The leather pad has a wonderful aged patina with original studded detail.

A truly one off piece that would have taken many hours of skilful craftsmanship to make.
Internal width = 48 inches
