

A PAIR OF 'MOZART' WOVEN RATTAN ITALIAN LOUNGE ARMCHAIRS BY FLEXFORM

SKU: GD1584

A pair of 'Mozart' woven reed/rattan armchairs by high-end Italian manufacturer Flexform.

A refined interior armchair, the Mozart chair exudes an outdoor charm and vague recollections of colonial times. Its light but sturdy metal and wood structure is contrasted by the use of woven reed, that lends it an air of uncommon finesse. Generous padding ensures luxurious comfort.

Outfitted with practical front casters, the Mozart armchair can be moved with ease.

Frame in metal and solid wood, with woven reed, rear feet in solid wood with tips in metal with a satin finish, Front casters in metal and rubber.

Newly upholstered seat cushions to closely match the original fabric. Originally these would have come with a soft backrest cushion but they are not included with these. They offer a very generous seat and are very comfortable without the backrest cushion. A loose cushion can be placed on the back rest. If required, we can make two soft cushions to match the fabric, please enquiry for quote.

Condition: In excellent overall condition, newly upholstered seat cushions. There are some age related scuffs to the wood and several small losses and marks on the rattan, however they are not easily noticeable and very difficult to spot in the photos. Some close up photos of these areas are shown for reference.

Chairs: H30" x W26" x D34", Seat Height 16"

Designed and first launched in 1996 by Flexform
