A PAIR OF RECLAIMED IRON TREE GUARDS GARDEN TRELLIS TOPIARY FRAMES

SKU: GD1623

£875.00

A pair of reclaimed iron tree guards standing at 6 feet tall and made from solid bar, they provide protective and decorative element to orchard spaces and give a sense on grandeur to a garden scheme.

Ideal for protecting young trees, these guards can also be creatively used as elegant topiary columns or striking features at the entrance of your garden. Bolted into a secure base they could be used as gate posts.

The original black paint finish, combined with an alluring rust-aged patina, gives these guards a classic yet rustic look that complements any garden setting.

Perfect for established gardens or as a textured addition to a new garden.

They are constructed in two halves which bolt together. They could also be used as 4 half circled D-shaped trellis on a garden or house wall.
