LARGE RECLAIMED YORK STONE GARDEN TABLE | WEATHERED SANDSTONE GARDEN FEATURE

SKU: GD1474

A large Victorian York Stone garden table. A huge single stone top measuring 5ft x 4ft sitting on a large sandstone plinth. Superbly weathered with a rough characterful natural surface. A low table which is also a good height for sitting on and would make a fantastic garden feature.

A lovely country house piece that would fit into an established garden or provide age to a newly formed garden.

The piece is free standing but due to the size and weight of this item, this will need to be professionally installed by a Landscape Gardener or Builder using mortar to bed the top onto the base and ensure adequate foundation to hold the weight.

Please note that the overall height of 58cm (23") is the maximin height, the finished installed height could be lowered to allow the sandstone to be bedded into the ground.

Sandstone plinth measures 47cm (18") High, 61cm (24") Wide, 75cm (30) Long
